# Ultherapy

## NEW to The Laser and Skin Clinic

#### World's first and only FDA-Approved Non-Surgical Facelift

**Treats:** Skin laxity & sagging, lowered brows, sagging under the chin, loose skin on the neck, lines and wrinkles on the décolletage.

**Areas Treated:** Face, eyes, eyebrows chin, neck and décolletage.

Ultherapy is a new type of non-surgical, non-invasive procedure for the face, neck, jowls and chest that uses ultrasound and the body's own natural healing process to lift, tone, and tighten loose skin.

#### Natural, Noticeable Results

Now there's a way to stand firm in the face of gravity—on your terms. With Ultherapy, there's no downtime, no foreign substances, no radical change; just a healthy reviving-up on the inside for a natural, noticeable effect on the outside.

With Ultherapy, you can go about your day after a single, 30-60 minutes procedure. You may notice a short-term "boost" but the natural process of creating new, more elastic, collagen builds over time – much like the effect that exercise has on building muscle (but without the multiple workouts!).

#### The Beauty of Ultherapy

Results will unfold over the course of 3-6 months and some clients have reported continued improvement for up to 6 months.

Full Face	€3500
Lower Face	€2900
Full Neck	€2400
Décolletage	€1300
Upper Face	€600
